Circular

Date: 17th July 2023

Dear Parents (DP Class of 2024),

With a view to assessing student learning & reflection so that it informs teaching, we have a series of formative assessments that have been planned. We follow an inquiry-based approach for teaching and learning. Students are encouraged to ask questions, discover problems related to real life situations, and establish links between known to unknown.

Apart from permitting students to demonstrate learning, the purpose of these assessments is also to permit teachers to review their curricula and revisit units if need be. Assessment rubrics will be shared with students by the respective teachers.

These assessments will happen during class time itself. The schedule for the Formative assessments is as under:
